

Optional

MIA FreshMilk System

The innovative micro-injected air (MIA) solution creates a consistent, velvety texture without diluting the taste with steam. Provides warm or cold milk and milk foam with the consistency to suit the consumer's taste.

Distance Selection

Touch-free beverage selection with a distance of 0.8 inches from the display for added safety and hygiene

Accessories adapted to your business model

With a wide range of accessories, Rio Advanced can be adapted to suit any business model, with different payment modules, stands and coolers available to complement the machine.

## Rio Advanced Espresso & Chocolate

The art of fresh bean espresso, cappuccino, and chocolate from *the* most compact super-automatic.

Truly a barista...  
available 24/7.

Rio is a premium super-automatic, bean-to-cup espresso and hot beverage machine that creates uplifting cafe-quality drinks with little effort and customization. The pleasure of specialty coffee should start with hassle-free creation, and Rio delivers. Its design will attract and impress consumers as it guides them through a pleasant experience. A user-friendly experience and reliable drink service are a result of European engineers' decades of research and development, which set One-Touch Drinks machines apart.

Rio Espresso's extra-compact design fits anywhere coffee is desired, providing the highest quality espresso-based and chocolate drinks. It is suited for customer-facing, medium-demand locations that consume up to 100 cups daily, such as restaurants, offices, lounges, convenience stores, gas stations, and hotels. It is also compatible with cashless payment processors.

Enjoy the aroma of freshly ground and brewed coffee by Rio Espresso & Chocolate

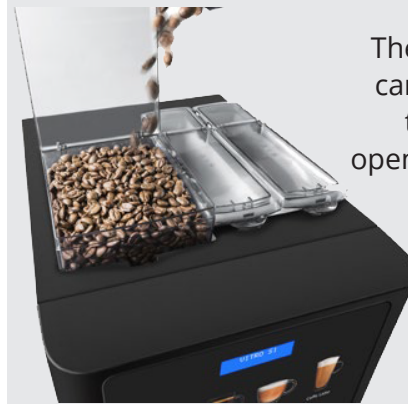

Rio caters to diverse tastes by delivering impressive, barista-style espresso specialty drinks of your choosing. Twelve touch selections control the menu and are super-easy for new users to understand and operate. Rio makes coffee by grinding fresh coffee beans, tamping, extracting espresso, and steaming pure powdered milk from the canister. A perfect balance of aroma, crema, and flavor, Rio ensures the correct elements are present in every drink, all within a minute after selection.

Rio is quick and easy to maintain, allowing you to focus on what's more important: your business. Wrap Rio to inform the public and increase sales using non-permanent magnets. The best promotional design grabs attention, and the consistently high-quality, delicious drinks will keep customers returning for more. Rio provides cafe-quality coffee service and will last for 20 years or more.

**Easy to Refill Coffee Beans & Soluble Ingredients**

The filling process can be done from the top without opening the door in a quick, simple way.

**Service Area**

Black-on-black gives Rio a modern, contemporary look suitable for customer-facing locations. A small cup flip-tray keeps espresso-only drinks hot and from potential dispensing misses with the smaller cup sizes.

**Canister Capacity**  
150 cups Espresso  
50 cups Cappuccino  
40 cups Hot Chocolate

**Easy Order & Label Change**

Easily order drinks from Rio through twelve touch selections. Simple drink card replacement allows changes to the menu. Various drink cards come with the machine, and custom can be ordered.

**The variable brewing unit** enables two different brewing methods in a single machine: espresso and filter coffee. Furthermore, the coffee strength and size can be adjusted thereby enabling a perfect customization of each beverage.

**Automatic Cleaning and Maintenance**

Designed to stay hygienic, auto-cleaning routines are quick and thorough with hot water. Schedule auto-cleaning at specific times throughout the day or night and minutes after each drink service.

**The maintenance tray** is removed from the front which makes maintenance quick and easy for the everyday routine.

The coffee waste bin has a capacity of up to 60 coffee cakes. It is designed for easy removal, emptying and is dishwasher safe. It can be used with a bag liner.

**Easy to Clean Waste Trays**

The liquids tray has a capacity of 1.2 liter. The design has a built-in wave breaker to avoid unwanted splashes and spills during transport for cleaning.
