Titan Protein is SPOT-ON With Latest Trends in Fitness

The latest market research reporting on the global sports nutrition market predicts a compound annual growth rate (CAGR) of around 9%. The sport segment of protein powder dominates the market with an impressive 65% share. The market is expected to significantly grow due to an increase in consumer awareness and the desire to maintain a healthy diet and active lifestyle by more people as time passes. Sport drink sales, such as protein shakes, leads to a sure path of success considering profit margins are higher than other beverages, a larger segment of the population now and going forward are interested in leading active lifestyles, and both numbers will continue to grow for the foreseeable future. So why wait to profit?

An attractive design that's easy to use will increase revenue.

- Titan Protein has a minimalist, ergonomic and intuitive design, drawing the attention of consumers and boosting sales.
- Titan offers a no-fuss drink order incorporating a 32-inch digital touchscreen. The consumer chooses their product, and a freshly prepared chilled protein shake is delivered within 20 seconds.
- Cashless, cash and coin payment options.
- Consumers can enjoy consistent drinks served cold or hot in a 90mm diameter cup, which is automatically dispensed.
- The digital media screen allows you to incorporate digital signage, advertising, and product promotions that grab the passerby's attention.
- Enhance your brand's image with a magnet machine wrap (sides only) that is easily interchangeable to keep a fresh and current brand message.
- Operators can log in to the back-office system cloud and remote management to check operations including: sales report, data statistics, fault notification, data analysis to find out the best sellers and solve problems to improve their sales performance.

Designed for reliability, ease of configuration, and low maintenance.

- Use Titan on or off a wifi network. Its operation will function even when a network is not available.
- Drinks are always made fresh and safely, thanks to a hot water boiler that is incorporated for the cleaning process. Hot water sanitizes the pipes and mixing bowls.
- Food-grade powder canisters (6 total): 1/2-gallon or 2-liter capacity in each.
- It's made of high-impact, resistant sheet metal for a robust design to stay new looking longer.
- Eco-friendly for energy efficiency.
- Two languages: English and Chinese
- Software updates can be done on Titan with wifi.
- Enter COG and retail price to run profit reports. See Circle Charts or Histogram results for quick analysis.
- Enter grams per drink and refill volume for low-product warnings and status reports.
- Backoffice access to: Order List, Device List, Profit Details, Revenue Details, Languages, Payment, Information.
